Weekly Summary of COVID-19 Positive Cases

The below table shows the number of members of the UMCES community who have tested positive for the coronavirus on a weekly basis by location with the following caveats:

- Data only includes individuals who have access to campus AND were on campus 14 days prior to the positive test.
- Data does NOT include members of the UMCES community who telework or had not been on campus 14 days prior to their positive test result.
- The table will be updated weekly on the morning of the first business day of the week.

The UMCES community is >95% vaccinated.

Should you have any questions related to the data in this chart, please contact UMCES Director of Communications Amy Pelsinsky at apelsinsky@umces.edu. **The weekly summary is available at www.umces.edu/coronavirus.**

Week of	8/16	8/23	8/30	9/6	9/13	9/20	9/27	10/4	10/11	10/18	10/25	11/1	11/8	11/15
