

CURRICULUM VITAE

Katharina Anna Maria Engelhardt

Appalachian Laboratory
University of Maryland Center for Environmental Science
301 Braddock Road
Frostburg, Maryland 21532-2307

I. Education

- 1993 B. S., Oregon State University. Animal Science.
- 1997 M.S., Utah State University. Fisheries and Wildlife Ecology. Evaluation of translocation criteria for Trumpeter swans reintroduced to northern Utah: habitat quality and interactions with Tundra swans.
- 2000 Ph.D., Utah State University. Ecology. The role of species composition and biodiversity in wetland ecosystem resilience and processes.

II. Professional Background

- 2000-2008 Assistant professor, Appalachian Laboratory, University of Maryland Center for Environmental Science, Frostburg, MD.
- 2008-present Research associate professor, Appalachian Laboratory, University of Maryland Center for Environmental Science, Frostburg, MD.

III. Research

- A. Areas of professional expertise
Plant community ecology, experimental ecology, aquatic botany, wetland ecology, submersed aquatic plants, tidal freshwater marshes

B. Publications

1. Papers in Refereed Journals

Engelhardt, K. A. M., J. A. Kadlec, V. L. Roy, and J. A. Powell. 2000. Evaluation of translocation criteria: a case study with trumpeter swans (*Cygnus buccinator*). Biological Conservation 94: 173-181.

Powell, J. A. and K. A. M. Engelhardt. 2000. Optimal trajectories for the short-distance foraging flights of swans. Journal of Theoretical Biology 204: 415-430.

Engelhardt, K. A. M. and M. E. Ritchie. 2001 Effects of macrophyte species richness on wetland ecosystem functioning and services. Nature 411: 687-689. UMCES Contribution #3878.

Engelhardt, K. A. M. and J. A. Kadlec. 2001. Species traits, species richness and the resilience of wetlands after disturbance. Journal of Aquatic Plant Management 39: 36-39. UMCES Contribution #4025.

Engelhardt, K. A. M. and M. E. Ritchie. 2002. The effect of aquatic plant species richness on wetland ecosystem functioning. Ecology 83: 2911-2924. UMCES Contribution #3555

Solan, M., B. J. Cardinale, A. L. Downing, K. A. M. Engelhardt, J. L. Ruesink, and D. S. Srivastava. 2004. Extinction and ecosystem function in the marine benthos. Science 306:1177-1180. UMCES Contribution #3829,

Rafaelli, D., B. J. Cardinale, A. L. Downing, K. A. M. Engelhardt, J. L. Ruesink, M. Solan, and D. S. Srivastava. 2005. Response to R. W. Flint and R. D. Kalke: Reinventing the wheel in ecology research? Science 307:1875-1876. UMCES Contribution #3859

Engelhardt, K. A. M. 2006. Relating effect and response traits in submersed aquatic macrophytes. Ecological Applications 16:1808-1820. UMCES Contribution #4027

Hopfensperger, K. N., K. A. M. Engelhardt, and S. W. Seagle. 2006. The use of case studies in establishing feasibility for wetland restoration. Restoration Ecology 14:578-586. UMCES Contribution #4026

Hopfensperger, K. N., K. A. M. Engelhardt, and S. W. Seagle. 2007. Ecological feasibility studies in restoration decision making. Environmental Management 39:843-852. UMCES Contribution #4165

Hopfensperger, K. N. and K. A. M. Engelhardt. 2007. Coexistence of *Typha angustifolia* and *Impatiens capensis* in a tidal freshwater marsh. Wetlands 27:561-569. UMCES Contribution #4166

Chadwell, T. B. and K. A. M. Engelhardt. 2008. Effects of pre-existing submersed vegetation and propagule pressure on the invasion success of *Hydrilla verticillata*. Journal of Applied Ecology

45:515-523. All authors contributed equally to this work. UMCES Contribution #4251

Gardner, R. H. and K. A. M. Engelhardt. 2008. Spatial processes that maintain biodiversity in plant communities. Perspectives in Plant Ecology, Evolution and Systematics 9:211-228. UMCES Contribution #4154

Hopfensperger, K. N. and K. A. M. Engelhardt. 2008. Annual species abundance in a tidal freshwater marsh: germination and survival across an elevational gradient. Wetlands 28:521-526. UMCES Contribution #4250

Minor, E. S., S. M. Tessel, K. A. M. Engelhardt, and T. R. Lookingbill. 2009. The role of landscape connectivity in assembling exotic plant communities: a network analysis. Ecology 90:1802-1809. UMCES Contribution #4261

Adams, S. and K. A. M. Engelhardt. 2009. The impact of *Microstegium vimineum* (Japanese stiltgrass) invasion on herbaceous plant communities. Biological Conservation 142:1003-1010. UMCES Contribution #4382

Hopfensperger, K. N., K. A. M. Engelhardt, and T. R. Lookingbill. 2009. Vegetation and seed bank dynamics in a tidal freshwater marsh. Journal of Vegetation Science 20:767-778. UMCES Contribution #4383

Burnett, R., Jr., M. Lloyd, K. Engelhardt, and M. Neel. 2009. Development of eleven polymorphic microsatellite markers in a macrophyte of conservation concern, *Vallisneria americana* Michaux (Hydrocharitaceae). Molecular Ecology Resources. UMCES Contribution #4386

Lookingbill, T. R., A. J. Elmore, K. A. M. Engelhardt, J. B. Churchill, J. E. Gates, and J. Johnson. 2010. Influence of wetland networks on bat activity in mixed-use landscapes. Biological Conservation. UMCES Contribution #4387

2. Books or Chapters

Bengtsson, J., K. Engelhardt, P. Giller, S. Hobbie, D. Lawrence, J. Levine, M. Vila, and V. Wolters. 2002. Slippin' and slidin' between the scales: the scaling components of biodiversity – ecosystem functioning relations. In: M. Loreau, S. Naeem, and P. Inchausti (eds.). Biodiversity and Ecosystem Functioning: Synthesis and

Perspectives. Oxford University Press. UMCES Contribution #3641

Engelhardt, K. A. M., A. Symstad, A.H. Prieur-Richard, and M. Thomas. 2009. Opening communities to colonization – Forecasting the impacts of invaders on biodiversity and ecosystem functioning. In Biodiversity and Human Impacts, Naeem, S., D. E. Bunker, A. Hector, M. Loreau, and C. Perrings (eds.). Oxford University Press. Pp. 217-229. UMCES Contribution #4384

Wright, J., A. Symstad, J. Bullock, K. A. M. Engelhardt, L. Jackson, and E. Bernhardt. 2009. Restoring biodiversity and ecosystem function: will an integrated approach improve results? In Biodiversity and Human Impacts, Naeem, S., D. E. Bunker, A. Hector, M. Loreau, and C. Perrings (eds.). Oxford University Press. Pp. 167-178. UMCES Contribution #4385

Engelhardt, K. A. M. 2010. Eutrophication – Aquatic. Encyclopedia of Invasive Introduced Species. University of California Press. UMCES Contribution #in progress

Lookingbill, T. R., K.A.M. Engelhardt, A.J. Elmore, S. Tessel, and J.B. Churchill. 2010. Wetland networks in National Capital Region Parks: Enhanced inventory for Harpers Ferry National Historical Park. In: Rethinking Protected Areas in a Changing World: Proceedings of the 2009 George Wright Society Biennial Conference on Parks, Protected Areas, and Cultural Sites (Samantha Weber, ed.). UMCES Contribution #in progress

3. Published Abstracts

Engelhardt, K. A. M., and J. A. Kadlec. 1998. Predictions and observations of swans foraging in northern Utah. North American Ornithological Conference, St. Louis, Missouri.

Engelhardt, K. A. M., and J. A. Kadlec. 1998. Mechanisms of coexistence between Tundra and Trumpeter swans. Annual Meeting, Ecological Society of America, Baltimore, Maryland.

Engelhardt, K. A. M., and J. A. Kadlec. 1999. Biodiversity versus species effects on ecosystem processes and resilience in mesocosm wetlands. Annual Meeting, Ecological Society of America, Spokane, Washington.

- Engelhardt, K. A. M., J. A. Kadlec, and V. L. Roy. 1999. Trumpeter swan translocations to northern Utah: evaluation of biological and socio-political criteria. Annual Meeting, Society for Conservation Biology, College Park, Maryland.
- Engelhardt, K. A. M., and J. A. Kadlec. 1999. Effects of biodiversity and species assemblages on freshwater wetland productivity after a disturbance. Annual Meeting, Society of Wetland Scientists, Norfolk, Virginia.
- Engelhardt, K. A. M., and J. A. Kadlec. 2000. Traits of four submersed aquatic macrophyte species: effects on resources, environmental conditions and resilience after clipping and drought disturbances. Annual Meeting, Aquatic Plant Management Society, San Diego, California.
- Engelhardt, K. A. M., M. E. Ritchie, and J. A. Kadlec. 2000. Species richness does not always enhance productivity: priority effects and competition for space in wetland plant communities. Annual Meeting, Ecological Society of America, Snowbird, Utah.

Engelhardt, K. A. M., A. J. Elmore, and K. N. Hopfensperger. 2008. Sea Level rise at Dyke Marsh Preserve. Potential consequences to vegetation and ecosystem processes. UMCES Contribution #TS-572-08.

Engelhardt, K. A. M., S. Tessel, and S. Adams. 2008. A sedge, grass and rush inventory of 7 parks in the National Capital Region. UMCES Contribution #TS-571-08.

Engelhardt, K., M. Neel, and M. Lloyd. 2010. The role of genetic diversity in restoration success of *Vallisneria americana* in the Chesapeake Bay. UMCES Contribution #TS-600-10.

C. Contracts and Grants

1. Awarded

a. Active in 2010

The role of genetic diversity in restoration success for *Vallisneria americana* in the Chesapeake Bay. Maryland Sea Grant College Program. 2007-2010. \$166,087. (Principal investigator, 1mo).

Evaluating potential Natural National Landmarks. National Park Service. 2007-2011. \$30,000. (co-principle investigator, 1.5mo).

The role of sediments in the maintenance of biodiversity in freshwater marshes: implications for global environmental change. National Science Foundation. 2009-2012. \$607,983. (Principle investigator, 3.0mo).

RET Supplement: The role of sediments in the maintenance of biodiversity in freshwater marshes: implications for global environmental change. 2010-2011. \$30,750. (principle investigator, 0mo).

Vegetation structure at Prince William Forest Park, Catoctin Mountain Park, and Dyke Marsh Wildlife Preserve: LiDAR acquisition and analysis. National Park Service. 2009-2011. \$66,549. (co-principle investigator, 0.25mo).

MRI-R2: Acquisition of a shared isotope ratio mass spectrometer for ecological, geological and hydrological research, education and training in the Central Appalachians. National Science Foundation. 2010-2011. \$434,273. (senior personnel, 0mo).

Coastal vulnerability modeling for freshwater tidal reaches of the Potomac and Anacostia Rivers. National Park Service. 2010-2013. \$423,000. (co-principle investigator, 2mo).

Program Development Funds: Evolutionary and Ecological potential of *V. americana* in the Chesapeake Bay. 2010-2011. \$6,659. (principle investigator, 0mo). *Accepted*.

b. Terminated

Creating and restoring wetlands to enhance ecosystem performance: should wetlands be managed for overall diversity or the presence of “ecosystem engineers”? Society of Wetland Scientists. 1999-2000. \$1,000. (Principal investigator, 12mo)

Exotic species control and native plant restoration in Maryland reservoirs. National Fish and Wildlife Foundation through Maryland Department of Natural Resources. 2002-2003. \$5,978. (Subcontract, 0mo)

Developing a research program: The effects of SAV diversity on restoration success. Maryland Sea Grant. 2002-2003. \$9,988. (Principle investigator, 0.5mo)

Effects of preexisting submerged aquatic vegetation on the invasion success of *Hydrilla verticillata*: Is native plant restoration an effective biological management technique? National Estuarine Research Reserve. 2003-2004. \$17,500. (Faculty advisor, 0mo).

Developing a handbook to restore submersed aquatic vegetation at military installations around the Chesapeake Bay. Chesapeake Research Consortium. 2003-2004. \$7,500. (Subcontract, 1mo).

Controlling non-native submersed aquatic macrophyte species in Maryland reservoirs: Plant competition mediated by selective control. Aquatic Ecosystem Restoration Foundation. 2002-2005. \$40,000. (Principal investigator, 0.5mo)

A vascular plant inventory plan for three parks of the National Capital Network. National Park Service. 2003-2005. \$94,254. (Principle investigator, 1.25mo).

Developing a submersed aquatic vegetation (SAV) monitoring program at Otter Point Creek, Maryland. National Estuarine Research Reserve. 2004-2005. \$7,960. (Principle investigator, 0mo).

Otter Point Creek submerged aquatic vegetation grid study. National Estuarine Research Reserve. 2005-2006. \$20,000. (Principle investigator, 0.5mo).

Grassland restoration workshop: Aiding managers in the National Capital Regional Parks. National Park Service. 2005-2006. \$28,000. (Principle investigator, 0.5mo).

Evaluating Nottingham Park Serpentine Barren as a National Natural Landmark (NNL). National Park Service. 2006-2007. \$12,916, (co-principal investigator, 0.5mo).

Enhanced Wetland Inventory for Harpers Ferry National Historical Park. National Park Service. 2006-2007. \$14,975. (co-principal investigator, 0mo).

Competitive abilities of *Hydrilla verticillata* and *Vallisneria americana* along a nutrient gradient. National Estuarine Research Reserve. 2006-2007. \$20,000. (Faculty advisor, 0mo).

A sedge, grass and rush inventory of NCR Parks. National Park Service. 2004-2007. \$60,873. (Principle investigator, 0.5mo).

Research supporting evaluation and restoration of Dyke Marsh. National Park Service. 2005-2008. \$55,578. (Principal investigator, 0.5mo).

Connectivity monitoring proof of concept at Harpers Ferry National Historical Park. 2007-2008. \$11,731. (co-principle investigator, 0.25mo).

Should we restore Dyke Marsh? A management dilemma facing GWMP.
National Park Service. 2003-2010. \$158,904. (Principal investigator, 2mo).

2. Submitted in 2010 (as of June)

Coastal vulnerability modeling for freshwater tidal reaches of the Potomac and Anacostia Rivers. National Park Service. 2010-2013. \$423,000. (co-principle investigator, 2mo). *Accepted*.

RET Supplement: The role of sediments in the maintenance of biodiversity in freshwater marshes: implications for global environmental change. 2010-2011. \$30,750. (principle investigator, 0mo). *Accepted*.

Program Development Funds: Evolutionary and Ecological potential of *V. americana* in the Chesapeake Bay. 2010-2011. \$6,659. (principle investigator, 0mo). *Accepted*.

The feedback between geomorphology, plant diversity, and productivity: Predicting the fate of tidal freshwater marshes in response to sea level rise and changes in sediment loads. 2011-2012. \$83,000. (principle investigator, 2mo). *Rejected*.

Submersed Aquatic Vegetation Restoration in the Potomac River. 2010-2015. \$436,000. (principle investigator, 2mo).

Collaborative: Dimensions: The role of evolutionary history in spatial pattern formation of biodiversity and ecosystem function. National Science Foundation. 2011-2014. \$1,151,000. (principle investigator, 3mo).

D. Invited Seminars and Presentations

Engelhardt, K. A. M. and M. A. Ritchie. 2000. Species traits, inter-specific interactions, and the effects of biodiversity on wetland ecosystem processes. University of Wyoming, Laramie, Wyoming.

Engelhardt, K. A. M. 2001. Effects of macrophyte species richness on wetland ecosystem functioning and services. University of Maryland Center for Environmental Science, Appalachian Laboratory, Maryland.

- Engelhardt, K. A. M. 2001. The indirect and direct effects of aquatic plant diversity on wetland ecosystem functioning and services. Smithsonian Environmental Research Center, Maryland.
- Engelhardt, K. A. M. 2001. Effects of macrophyte species richness on wetland ecosystem functioning and services. University of Maryland Center for Environmental Science, Horn Point Laboratory, Maryland.
- Engelhardt, K. A. M. 2001. Effects of macrophyte species richness on wetland ecosystem functioning and services. Submerged Aquatic Plant Task Group Meeting, Maryland.
- Engelhardt, K. A. M. 2001. Effects of macrophyte species richness on wetland ecosystem functioning and services. University of Pittsburgh, Pennsylvania.
- Engelhardt, K. A. M. 2001. Effects of macrophyte species richness on wetland ecosystem functioning and services. University of Virginia, Virginia.
- Engelhardt, K. A. M. 2001. Effects of macrophyte species richness on wetland ecosystem functioning and services. DIALOG symposium, Bermuda.
- Engelhardt, K. A. M. 2002. Effects of macrophyte species richness on wetland ecosystem functioning and services. Clarion University, Pennsylvania.
- Engelhardt, K. A. M. 2002. Effects of macrophyte species richness on wetland ecosystem functioning and services. University of Maryland Center for Environmental Science, Chesapeake Bay Laboratory, Maryland.
- Engelhardt, K. A. M. 2002. The consequences of biodiversity loss on ecosystem functioning and services. Workshop presentation in Washington, DC.
- Engelhardt, K. A. M. 2002. Linking biodiversity and ecosystem functioning in wetland systems. University of Maryland, College Park, Maryland.
- Engelhardt, K. A. M. 2003. The role of biodiversity in wetland ecosystem functioning and restoration. Institute of Ecosystem Studies. Millbrook, New York.

- Engelhardt, K. A. M. 2004. Providing services to National Parks. Chesapeake Bay Cooperative Ecosystems Studies Unit National Managers Meeting. Baltimore, Maryland.
- Engelhardt, K. A. M. 2004. The role of biodiversity in restoration success of aquatic habitats. Maryland Department of Natural Resources. Annapolis, Maryland.
- Engelhardt, K. A. M. 2004. A model SAV program. SAV Workshop. Fort Story, Virginia.
- Engelhardt, K. A. M. 2004. Restoration 1: Planning. SAV Workshop. Fort Story, Virginia.
- Engelhardt, K. A. M. 2004. Restoration 2: Experimental designs and approaches. SAV Workshop. Fort Story, Virginia.
- Engelhardt, K. A. M. 2004. Habitat evaluation II: Water quality assessment. SAV Workshop. Fort Story, Virginia.

- Engelhardt, K. A. M. 2008. The restoration of Dyke Marsh Preserve in a dynamic and changing world. Chesapeake Bay Watershed Cooperative Ecosystems Studies Unit meeting at Appalachian Laboratory, Frostburg, Maryland.
- Engelhardt, K. A. M. 2008. Wetland biodiversity and ecosystem functioning. University of Maryland College Park, Maryland.

Engelhardt, K. A. M., M. Neel, and M. Lloyd. 2008. The role of genetic diversity in the restoration success of *Vallisneria americana*. Submersed Aquatic Vegetation Task Group meeting at Horn Point Laboratory, Cambridge, Maryland.

M. Lloyd, K. A. M. Engelhardt, and M. Neel. 2009. A preliminary analysis of the role of genetic diversity in restoration success of *Vallisneria americana*. Submersed Aquatic Vegetation Task Group meeting in Annapolis, Maryland.

E. Symposia Organized/Chaired for Professional Meetings

Oral session chaired at Annual Meeting of the Ecological Society of America, August 1998, Baltimore, MD.

Oral session chaired at Annual Meeting of the Society for Wetland Scientists, May 2008, Washington, DC.

F. Active Memberships in Professional Societies

Society of Wetland Scientists
Ecological Society of America
Aquatic Plant Management Society

G. Other Professional Recognition

1. Editorships

Associate Editor for the journal “Wetlands”; 24 manuscripts handled from 2006-2008.

2. Awards

Stokes-Leopold Memorial Scholar, 1999-2000
College of Natural Resources Research Assistant of the Year 1999-2000
Best student paper (3rd place) at Annual Meeting of the Aquatic Plant Management Society, 2000
Douglas Wilcox Award for Outstanding Associate Editor for Wetlands, 2008.

3. Peer Review Activities

a. Proposals reviewed

National Science Foundation (2 external reviews in 2005, 1 review panel in 2006, 1 external review in 2006, 1 review panel in 2009)

The Nature Conservancy, Maryland/DC Chapter (1 in 2004)
Society for Wetland Scientists student proposals (21 in 2005, 16 in 2006, 22 in 2007, 21 in 2008)

b. Articles reviewed

Aquatic Botany (1 in 2005)

Aquatic Ecology (1 in 2008)

Biogeochemistry (1 in 2001)

Biological Conservation (1 in 2005, 1 in 2006)

Ecology Letters (1 in 2002, 1 in 2003)

Ecology (1 in 2003, 1 in 2004, 1 in 2006, 1 in 2008, 2 in 2009)

Ecological Applications (1 in 2005)

Ecological Monographs (1 in 2007)

Ecosystems (1 in 2005, 1 in 2006, 1 in 2007)

Environmental and Experimental Biology (1 in 2005)

Journal of Ecology (1 in 2003, 1 in 2009)

Journal of Plant Ecology (1 in 2007)

Journal of Wetland Management (1 in 2003)

Limnology and Oceanography (1 in 2006)

Oikos (1 in 2005, 1 in 2006, 1 in 2007, 1 in 2008)

Plant Biology (1 in 2006)

Plant Ecology (1 in 2007)

Water Research (1 in 2001)

Wetlands (1 in 2003, 1 in 2004, 2 in 2005, 1 in 2006)

Wilson Bulletin (1 in 2000)

H. Consulting Activities

None

IV. Teaching and Training

A. University System of Maryland Courses Taught

MEES 698R / BIOL 622: Community Ecology: Integrating Composition, Scale and Process (3 credits)

BIOL 694: Seminar: Species Diversity in Space and Time (1 credit)

MEES608W/BIOL694: Seminar: Classic Readings in Ecology (1 credit)

MEES608X: Seminar: Aquatic Plant Physiology (1 credit; co-instructor with Kristy Hopfensperger)

MEES698Q: Applied Environmental Chemistry (4 credits, team-taught course)

B. Courses Taught Outside the University System of Maryland

FW4900/6900: Wetland Ecology (2 credits; Utah State University)

C. Graduate Students Supervised as Major Advisor

1. Degrees Conferred

Adams, Sherry; M.S.; Applied Ecology and Conservation Biology; Frostburg State University. 2007

Beser, Todd; M.S.; Estuarine and Environmental Science, Biological Oceanography AOS; University of Maryland. 2007

Chadwell, Todd, B.; M.S.; Marine, Estuarine and Environmental Science, Ecology AOS; University of Maryland. 2004

Eichelberger, Bradley, A.; M.S.; Applied Ecology and Conservation Biology; Frostburg State University. 2009

Elmore, Annette; M.S.; Estuarine and Environmental Science, Environmental Science AOS; University of Maryland. 2008

Hopfensperger, Kristy; Ph.D. Estuarine and Environmental Science, Environmental Science AOS; University of Maryland. 2007

Tessel, Samantha; M.S., Applied Ecology and Conservation Biology;
Frostburg State University. 2008

2. Students Currently Supervised

McChesney, Lauren; M.S.; Estuarine and Environmental Science, Ecology
AOS; University of Maryland.

3. Current Graduate Student Committee Memberships

Michael Lloyd	Ph.D.	BEST
Brittany West	MS	MEES

V. Service

A. Popular Articles

Engelhardt, K. A. M. and T. M. Beser. 2008. Temperature and submersed aquatic plants. LakeLine Summer 2008: 34-36. UMCES Contribution #SS-105-09

B. Public Service

1. State/Regional Service

Member, SAV Task Group. 2001 to present.

Member, Freshwater SAV Partnership. 2002 to present.

Advisor for interpretive dance team at Frostburg State University. 2003.

Presentation of the AL Forum “A scientific exploration of peatlands”. 2003.

Mentor for teacher interns. 2003 to 2008.

Advisor for homeowners in Rohrersville, Maryland. 2003.

Presentation to Garden Club. 2003.

Presentation to Western Maryland Native Plant Society. 2006.

Presentation to local school. 2003.

Judge of Science Fair at Northern Highschool. 2004, 2005.

Board member, The American Chestnut Foundation.

Scientific advisor for National Park Service. 2008.

2. Service Outside Region

Community Outreach Event: “An Oasis of Salt” sponsored by the Ecological Society of America. Taught wetland ecology portion of event. Antelope Island, Utah. 2000.

Scientific Advisor for Aquatic Ecosystem Restoration Foundation. 2003 to present.

Student Grants Panel of the Society for Wetland Scientists. 2003 to 2008.

Panel member for the National Science Foundation. February 2006 and November 2009.

C. University System of Maryland

University of Maryland MEES Ecology AOS committee (6/2004 to 2006)
Chair of 2006 MEES Colloquium held at the Appalachian Laboratory

D. Laboratory and Center

Laboratory Committees:

- Greenhouse manager (11/2000 to present)
- Library (11/2000 to present)
- Graduate education (12/2001 to 2/2004)
- Faculty development (11/2000 to 5/2001)
- Space improvement (12/2002 to 5/2004)
- FSU watershed track (5/2003 to 12/2003)
- Search committee chair Forest Ecologist (2005)
- Seminar coordinator (2006)
- AL Environmental Sustainability Council (3/2008 to present)

Center Committees:

- IAN advisory committee (5/2004 to present)
- Convocation committee (making connections across labs; 2005)
