

Alfred P. Sloan Research Fellowships 2015

1934

The Alfred P. Sloan Foundation congratulates the winners of the 2015 Sloan Research Fellowships. These 126 early-career scholars represent the most promising scientific researchers working today. Their achievements and potential place them among the next generation of scientific leaders in the U.S. and Canada. Since 1955, Sloan Research Fellows have gone on to win 43 Nobel Prizes, 16 Fields Medals, 65 National Medals of Science, 14 John Bates Clark Medals, and numerous other distinguished awards.

Too often we fail to recognize and pay tribute to the creative spirit. It is that spirit that creates our jobs... There has to be this pioneer, the individual who has the courage, the ambition to overcome the obstacles that always develop when one tries to do something worthwhile, especially when it is new and different. (Alfred P. Sloan Jr., 1941)

The Alfred P. Sloan Foundation is a philanthropic, not-for-profit grantmaking institution that supports original research and education in science, technology, engineering, mathematics, and economics. www.sloan.org
