March, 2010

- ABBOTT, Tyler Allen** Ecology of upper tidal salt marsh fishes: Investigating the impacts of a salt marsh impoundment in Chesapeake Bay. 1994. M.S. Thesis, University of Maryland, CEES, Horn Point Laboratory. 242 p.
- ADELSON, Jordan M** The evaluation of geochemical indicators of anoxia in the Chesapeake Bay. 1997. Ph.D. Dissertation, University of Maryland, College Park. 214 p.
- AHMED, J.** Studies on the metabolism of inorganic nitrogen compounds by green algae. 1967. Ph.D. Dissertation. University College London, Botany Department. 127 p.
- ALBERTSON, Helen D.** Long term effects of high temperatures and low salinities on specimens of *Melongena corona* and *Nassarius vibex*. 1980. Ph.D. Dissertation. University of Miami. 222 p.
- ALLEVA, Brian J.** Wind-wave simulation of Upper Chesapeake Bay. 1994. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 158 p.
- ALVES, Luiz Fernando** The fate of streamwater nitrate entering littoral areas of an Amazonian floodplain: the role of plankton, periphyton, inundated soils, and sediments. 1993. Ph.D. Dissertation, University of Maryland, CEES, Horn Point Laboratory. 370 p.
- ANDERSON, Pilantana** Performance evaluation of hybrid striped bass with a comparison to two superior strains of striped bass *Morone saxatilis* in two aquaculture systems. 2000. M.S. Thesis, University of Maryland, CEES, Horn Point Laboratory. 173 p.

- APPLE, Jude Kolb** The regulation of bacterioplankton carbon metabolism in a temperate salt-marsh system. 2005. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 184 p.
- ATHANAS, Chris L.** Energy flow through the birds of a brackish tidal marsh. 1976. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 52 p.
- BAIER, Christine Teresa** Chaetognaths as predators and competitors of larval fish in the South Atlantic Bight. 1995. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 100 p.
- BALDWIN, Bradely Steven** The natural diet and feeding behavior of planktotrophic larvae of the eastern oyster *Crassostrea virginica*. 1992. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 187 p.
- BARTH, John A.** Stability of a coastal upwelling front over topography. 1987. Ph.D. Dissertation. Woods Hole Oceanographic Institution. 168 p.
- BARTLESON, Richard D.** Interactions of seagrass beds and the water column: effects of bed size and hydrodynamics. 2004. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 246 p.
- BATES, Stephen S.** Studies on the use of radiosulfate to determine the physiological state, growth rate and rate of protein synthesis by marine phytoplankton. 1979. Ph.D. Dissertation. Dalhousie University. 174 p.
- BEARDALL, John** Studies on the mechanism of photosynthesis in marine phytoplankton. 1976. Ph.D. Dissertation. University College London. 182 p.
- BECKERT, Kristen A.** Watershed land use and nutrient dynamics in Maryland coastal bays, U.S.A. 2008. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 159 p.
- BENOIT, Janina Marie** Sulfide controls on mercury methylation by sulfate reducing bacteria. 2000. Ph.D. Dissertation. University of Maryland, College Park. 128 p.

- BERG, Joseph A.** Temporal and spatial variation of seston as a food resource to the oyster, *Crassostrea virginica*. 1984. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 121 p.
- BERG, Mine G.** Physiological and population responses of marine phytoplankton to variations in the quality of nitrogen. 1998. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 371 p.
- BERNDT, Heather L.** Effects of nutrients and turbidity from point and non-point source inputs on phytoplankton in the Choptank estuary. 1999. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 168 p.
- BISHOP, Ronald Henry** Fructose-1,6-Diphosphatase in *Anacystis nidulans*. 1978. Ph.D. Dissertation. University College London. 128 p.
- BLUNDON, Jay A.** Blue crab (*Callinectes sapidus* Rathbun) predation on Chesapeake Bay bivalves. M.S. Thesis. 1981. University of Maryland, CEES, Horn Point Laboratory. 82 p.
- BOICOURT, William** A numerical model of the salinity distribution in Upper Chesapeake Bay. 1969. M.S. Thesis. Johns Hopkins University. 70 p.
- BOICOURT, William C.** The circulation of water on the continental shelf from Chesapeake Bay to Cape Hatteras. 1973. Ph.D. Dissertation. Johns Hopkins University. 183 p.
- BOPP, Richard F.** The geochemistry of polychlorinated biphenyls in the Hudson River. 1979. Ph.D. Dissertation. Columbia University. 191 p.
- BOSSERMAN, Robert W.** The hierarchical integrity of *Utricularia periphyton* microecosystems. 1979. Ph.D. Dissertation. University of Georgia. 266 p.
- BOWDEN, William B.** Nitrogen cycling in the sediments of a tidal freshwater marsh. 1982. Ph.D. Dissertation. North Carolina State University. 113 p.
- BOYNTON, W.R.** Phytoplankton production in Chincoteague Bay, Maryland-Virginia. 1974. M.S. Thesis.

- University of North Carolina. 142 p.
- BRONK, Deborah A.** Microbially mediated transformations of dissolved organic nitrogen. 1992. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 167 p.
- BROOKS, Maureen T.** Trophic complexity, transfer efficiency and microbial interactions in pelagic ecosystems: A modeling study. 2003. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 118 p.
- BRYANT, Alison Lee** Effects of mesocosm dimension on the factors regulating heterotrophic bacterioplankton dynamics. 1995. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 106 p.
- BRYNER, Jeanna Rose** The effects of iron and sulfur on phosphorus dynamics along a tidal gradient in fresh oligohaline marshes. 2000. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 84 p.
- BURNS, James A., Jr.** Molecular diversity of diazotrophs in contrasting shallow marine sediments. 2003. Ph.D. Dissertation, University of Maryland, College Park.
- CABRAAL, Ravindra A.** Systems analysis of the Maryland oyster fishery: Production, management and economics. 1978. Ph.D. Dissertation. University of Maryland. 318 p.
- CAFFREY, Jane Marie** The effect of submersed macrophytes on nitrogen cycling in estuarine sediments. 1989. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 159 p.
- CAHOON, Donald R.** Net productivity of emergent vegetation at Horn Point salt marsh. 1975. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 94 p.
- CANNON, Glenn A.** Observations of motion at intermediate and large scales in a coastal plain estuary. 1969. Ph.D. Dissertation. Johns Hopkins University. 115 p.
- CARLSON, Craig Alexander** Stocks and dynamics of bacterioplankton and dissolved organic carbon in the open ocean. 1994. Ph.D. Dissertation. University of Maryland, CEES,

- Horn Point Laboratory. 212 p.
- CHANG, M.-Li** Modeling the effects of resuspension and deposition on early diagenesis of nutrients and contaminants. 1999. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 233 p.
- CHEN, Chung-Chi** Wall effects in estuarine mesocosms: Scaling experiments and simulation model. 1998. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 279 p.
- CHINTALA, Marnita Marie** Reproduction and feeding of *Stylochus ellipticus* (Girard), a predator of juvenile oysters. 1987. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 75 p.
- CHISCANO, Carina Lynn** The effects of wave exposure on submerged aquatic vegetation. 2000. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 145 p.
- CONNOR, Judith Lorraine** Benthic macro-algae associated with central Chesapeake Bay oyster communities. 1979. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory.
- COOLEY, Thomas N.** The effect of biotin, thiamine, and vitamin B₁₂ on the growth rate and cell size of *Gymnodinium*. 1975. M.S. Thesis. University of Maryland. 72 p.
- CRAWFORD, Sean Michael** Effects of turbulence on boundary layer fluxes in experimental ecosystems. 1998. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 75 p.
- CROSBY, Michael Peter** Utilization of detrital complexes by the oyster *Crassostrea virginica* (Gmelin). 1987. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 144 p.
- CUHEL, Russell Lee** Assimilatory sulfur metabolism in marine microorganisms. 1981. Ph.D. Dissertation. Woods Hole Oceanographic Institution. 418 p.
- CUNNINGHAM, Jeffrey J.** Responses of microcosm communities containing submerged aquatic vegetation to herbicide stress.

1979. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 66 p.
- DANIEL, Peter C.** Distance chemoreception and life history of Chesapeake Bay *Stylochus ellipticus* (Girard) (Turbellaria: Polychladida). 1982. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 79 p.
- DEAN, Thomas A.** Succession in a marine fouling community: Changes in community structure and mechanisms of development. 1977. Ph.D. Dissertation. University of Delaware. 132 p.
- DERRICK, Peggy Ann** Feeding periodicity and prey selection of the hogchoker, *Trinectes maculatus* (Bloch & Schneider) in the Chesapeake Bay. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 171 p.
- DINEEN, Joseph F., Jr.** Life history, biology, and functional morphology of *Lithotrya dorsalis*: a burrowing thraoacican barnacle. 1987. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 146 p.
- DOMINGUEZ, Evaristo V.** Control, por parte de los protozoos, de las comunidades bacterianas en diferentes ecosistemas marinos. 1999. Ph.D. Dissertation. Universitat de Barcelona. 262 p.
- DOWD, Catharina E.** Predator-prey interactions between juvenile bay anchovy (*Anchoa mitchilli*) and larvae of sea bream (*Archosargus rhomboidalis*). 1986. Ph.D. Dissertation. University of Miami. 134 p.
- DOYLE, Robert D.** Primary production and nitrogen cycling within the periphyton community associated with emergent aquatic macrophytes in an Amazon floodplain lake. 1991. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 269 p.
- DUNCAN, Thomas K.** Benthic infaunal community formation in dredged areas in Hampton Roads, Virginia. 1974. M.S. Thesis, University of Virginia. 55 p.
- EGGE, Jorun K.** Nutrient control of phytoplankton growth: effects of macronutrient composition (N, P, Si) on species succession. 1993. Ph.D. Dissertation. University of Bergen, Norway. 81 p.

- FAVA, James A.** The behavioral responses of blacknose dace, *Rhinichthys atratulus* (Hermann) to domestic sewage effluents and their toxic constituents. 1975. Ph.D. Dissertation. University of Maryland. 113 p.
- FILADELFO, Ronald J.** Subtidal sea level and current variability in the Hudson Raritan Estuary. 1984. Ph.D. Dissertation. State University of New York, Stony Brook. 183 p.
- FRIESE, Amy C.** Growth and mortality of the eastern oyster *Crassostrea virginica* in the Patuxent River. 1996. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 88 p.
- GARTON, David W.** Effects of temperature and salinity on the predation rate of the southern oyster drill *Thais haemastoma* upon *Crassostrea virginica*. 1978. M.S. Thesis. Louisiana State University. 37 p.
- GLOVER, H.E.** Studies on the biochemistry and physiology of *Phaeodactylum tricornutum*. 1974. Ph.D. Dissertation. University College London. 195 p.
- GOERTEMILLER, T.** Diversity of algae (Chlorophyta, Phaeophyta, Rhodophyta) related to depth, light intensity, NO₃-NO₂ and water flow across two transects of Long Reef, Grand Turk, BWI. 1988. M.S. Thesis. Georgetown University. 128 p.
- GOLDSBOROUGH, W.J.** Response of the submerged vascular plant, *Potamogeton perfoliatus* L., to variable light regimes in an estuarine environment. 1983. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 89 p.
- GOMEZ-REYES, Eugenio** Tidally driven lagrangian residual velocity in shallow bays. 1989. Ph.D. Thesis. State University of New York, Stony Brook. 129 p.
- GOODRICH, David M.** On stratification and wind-induced mixing in the Chesapeake Bay. 1985. Ph.D. Dissertation. State University of New York, Stony Brook. 134 p.
- GOTTFRIED, Mark D.** The ingestion and assimilation of coral mucus detritus by reef zooplankton. 1981. M.S. Thesis. University of Miami. 56 p.

- GREENBERG, Neil J.** Essential fatty acid requirements of juvenile sunshine bass (*Morone chrysops* x *M. saxatilis*). 1992. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 38 p.
- GUARRACI, M.** Interaction between epiphyte organic mass and resuspended inorganic materials on leaves of natural and artificial submersed aquatic vegetation. 1999. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 68 p.
- HABERKERN, Erik K.** Seasonal edaphic algal production, denitrification, and nutrient fluxes in an oligohaline and a mesohaline marsh on the Choptank River, Chesapeake Bay. 2000. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 88 p.
- HAGY, James D., III** Eutrophication hypoxia and trophic transfer efficiency in Chesapeake Bay. 2002. Ph.D. Thesis. University of Maryland, CEES, Horn Point Laboratory. 446 p.
- HARTWIG, Eric O.** Physical, chemical and biological aspects of nutrient exchange between the marine benthos and the overlying water. 1974. Ph.D. Dissertation. University of California. 174 p.
- HENSEL, Philippe F.** Nitrogen uptake characteristics of wild celery. 1992. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 229 p.
- HENTSCHKE, Peter G.** A fluorescence-based method for determining true gross photosynthesis reveals a significant photorespiratory flux in *Potamogeton perfoliatus* L. 1997. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 76 p.
- HERZOG, Henry W.** The economics of regional water quality management (a case study of river water quality in the Chesapeake Bay region). 1974. Ph.D. Dissertation. University of Maryland. 254 p.
- HILL, Suzanne M.** Phosphorus uptake and translocation in submersed aquatic *Vallisneria americana*. 1989. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 44 p.

- HOCHHEIMER, John N.** Trickling filter model for closed system aquaculture. 1990. Ph.D. Dissertation. University of Maryland. 300 p.
- HOLDEN, Jacqueline** The regulation of arginine biosynthesis in *Chlamydomonas reinhardtii*. 1969. Ph.D. Dissertation. University College, London. 106 p.
- HOOD, Mary A.** Chitin degradation in the salt marsh environment. 1973. Ph.D. Dissertation. Louisiana State University. 158 p.
- HOUDE, Sara E.L.** The effect of food quality on the functional ingestion response of the copepod, *Acartia tonsa*. 1985. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 45 p.
- HOWIE, Stephen J.** Late holocene sedimentology and stratigraphy of the Choptank River estuary. 1987. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 125 p.
- HUANG, Chou-Chung** Variation of food resources and nutritional demands of the ribbed mussel, *Geukensia demissa*. 2002. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 229 p.
- HUNDEMANN, P.T.** Lead concentrations in the Horn Point salt marsh ecosystem. 1975. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 63 p.
- HUNT, Duane M.** The effect of seasonal and interannual variations in rainfall on the input, transport and export of the inorganic nitrogen in the Choptank River, MD subestuary. 1993. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 106 p.
- INCZE, Michael L.** Episodic detrital organic carbon export from South Biscayne Bay, Florida. 1981. M.S. Thesis. University of Miami. 84 p.
- JANOWITZ, B.S.** Food selection of the gastropod, *Urosalpinx cinerea* (Say). 1956. B.S. Degree. Rutgers University. 27 p.
- JENKINS, Mark C.** The measurement, occurrence, and significance of

nitrification and denitrification in Chesapeake Bay sediments. 1981. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 77 p.

JESIEN, Roman V.

An investigation of factors affecting fish response to pulsed electric fields. 1989. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 135 p.

JOINT, Ian R.

Enzymes of the reductive pentose phosphate cycle in *Rhodospirillum rubrum*. 1971. Ph.D. Dissertation. University College London. 108 p.

JONES, Thomas W.

Relative phytoplankton primary productivity and particulate organism matter in a Maryland salt marsh. 1975. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 79 p.

JORDAN, Christina L.

Mesoscale patterns of phytoplankton size structure, primary productivity and implications for trophic transfer in Chesapeake Bay planktonic communities. 2003. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 224 p.

JORDAN, Stephen J.

Macroinvertebrates and reservoir discharge: effects of cave runlake on tailwater communities. 1980. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory, 71 p.

JORDAN, Stephen J.

Sedimentation and remineralization associated with biodeposition by the American oyster *Crassostrea virginica* (Gmelin). 1987. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 200 p.

KELLY, Patty A.

The role of behavior in regulating the vertical migration of stage I zoeae of the red crab, *Geryon quinque-dens* and the mud crab, *Eurypanopeus depressus*. 1981. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 70 p.

KERNER, Joseph P.

Documentation and verification of a finite-difference approximation of a laterally averaged estuarine model. 1985. M.S. Thesis. State University of New York at Stony Brook. 243 p.

KIM, Eun-Hee

The importance of physical mixing and sediment chemistry

in mercury and methylmercury biogeochemical cycling and bioaccumulation within shallow estuaries. 2004. Ph.D. Dissertation. University of Maryland, CEES, Chesapeake Biological Laboratory.

KLUENENBERG, A.A.

The effects of ultraviolet-B radiation on the salt marsh plants *Spartina alterniflora* and *Juncus roemerianus*. 2000. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 118 p.

KRAMER, Jonathan G.

Macromolecular bases of growth regulation in marine *Synechococcus* spp. 1988. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 251 p.

KRAUS, Richard T.

Alternative migratory pathways of white perch in the Patuxent River Estuary, Maryland. 2003. Ph.D. Dissertation. University of Maryland, CEES, Chesapeake Biological Laboratory.

KRYGSMAN, A.

The effects of ionic copper on selected larval stages of the American oyster, *Crassostrea virginica* (Gmelin), (Bivalvia: Ostreidae). 1983. M.S. Thesis. University of Maryland. 71 p.

KUHN, William A.

Interacting effects of light and sediment sulfide on eelgrass (*Zostera marina* L.) growth. 1992. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 90 p.

LEE, K.-Y.

The integration of GWLF and GIS to estimate nutrient export from a Maryland coastal plain basin. 2000. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 274 p.

LEONARD-SHENTON, M.

Nitrifying and denitrifying activity in the sediments of estuarine littoral zones. 1982. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory.

LEVINE, Daniel M.

The role of essential fatty acids during zoeal development of brachyuran crab larvae as studied using microencapsulation techniques. 1983. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory.

LI, Aishao

The feeding physiology of the mixotrophic dinoflagellate *Gyrodinium galatheanum*. 1998. Ph.D. Dissertation.

University of Maryland, CEES, Horn Point Laboratory.
272 p.

LIEBERT, Amy J.

Metabolism and nutrient cycling in experimental marsh sediments. 1997. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 73 p.

LIN, Weiqi

Modeling surface wind waves and their effects on air-sea fluxes in Chesapeake Bay. 2000. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory. 226 p.

LIPSCHULTZ, Fredric

Nitrogen fixation in Horn Point marsh on the upper Chesapeake Bay. 1978. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 44 p.

LITTLEFORD, R.A.

A study of the life history of *Dactylometra quinquecirrha*, *L. agassiz*, and the taxonomic validity of this species. 1938. Ph.D. Dissertation. University of Maryland, Chesapeake Biological Laboratory. 86 p.

LOMAS, Michael W.

Nitrate metabolism and the cellular energy balance: contrasting patterns of nitrate uptake, reduction, and release in marine diatoms and flagellates. 1999. Ph.D. Dissertation. University of Maryland, CEES, Horn Point Laboratory.

LORAH-DEVEREUX, M.

Natural attenuation of chlorinated volatile organic compounds in a freshwater tidal wetland. 1999. Ph.D. Dissertation. University of Maryland, College Park. 210 p.

LUCY, Jon A.

The representative cycle of *Mya arenaria* L. and distribution of juvenile clams in the upper portion of the nearshore zone of the York River, Virginia. 1976. M.A. Thesis.

MA, Xiping

Effects of environmental factors on distribution and asexual reproduction of the invasive hydrozoan, *Moerisia lyonsi*. 2003. M.S. Thesis. University of Maryland, CEES, Horn Point Laboratory. 131 p.

MacINTYRE, Hugh L.

Photosynthesis in variable light fields: regulation of rubisco activity. 1996. Ph.D. Dissertation. University of Delaware. 151 p.
