

### **Catering:**

**Other than for special events authorized by the lab director, catering services are not provided by HPL staff. Below is a list of local vendors who may be able to provide food or supplies for your event.**

For small events you should have your order placed at least one full day prior to the event and for larger events all orders should be placed at least 3-5 days prior to the event. Verify the lead time with each vendor.

For any event that you are arranging, make sure that you reserve the room for the event and allow enough time in the reservation to setup before your event and to clean-up and re-set all furnishings after your event. Include any special furniture setup requirements in a maintenance work order unless you are self-performing the setup and if any I.T. services are needed please fill out an I.T. work order.

Please contact Laura Seabrease at 410-221-8224 [lseabrease@umces.edu](mailto:lseabrease@umces.edu) if you have any questions about making the arrangements for your event.
