 Asian, Other _____
 Hispanic Prefer to Not Report

Are you a first-generation college student (neither parent earned a bachelor's degree)? Yes ___ No ___

Are you a U.S. citizen? Yes ___ No ___

Military Status (check one): Non-vet ___; Vet ___; Vietnam vet ___; active reserve ___; retired ___; special disability ___

Do you have a residence in the Baltimore area this summer: Yes ___ No ___ (not a basis for selection)

Education

1. Where did you attend high school: _____

2. List the institution you currently attend.

<i>Name</i>	<i>Location</i>
-------------	-----------------

3. Most recent completed year in college:

Freshman ____ Sophomore ____ Junior ____ Senior ____

4. Major: _____

5. Expected graduation date (MM/YYYY): _____

6. Current GPA: _____

7. Please list all courses in progress that are not shown in your unofficial transcript:

<i>Course subject</i>	<i>Grade or "In Progress"</i>
_____	_____
_____	_____
_____	_____
_____	_____

8. List any research internships you have completed:

9. List any honors you have received, honorary organizations to which you belong and offices held:

10. Would you like IMET to make your application available to other marine summer internship programs?

Yes No

IMET SUMMER INTERNSHIP

- The mission of the Institute of Marine and Environmental Technology (IMET) is to apply the tools of modern biology and biotechnology to study, protect and enhance marine and estuarine resources. The summer internship will provide orientation to working in a lab, seminars on the use of molecular techniques in fisheries and environmental research, a one-day workshop on communicating science, and a research project with an IMET faculty mentor.
- IMET is housed in a technologically advanced research facility. All rules and regulations of conduct must be followed for your safety and the safety of others. These rules and regulations will be described during the Orientation Session, to be held Monday, June 7, 2021.
- Our goal is to provide research opportunities in person at IMET's laboratories. If COVID restrictions prevent us from hosting in-person interns in the summer of 2021, we plan to offer a virtual internship focused on data processing, analysis, and communication. In 2020, interns completed projects virtually, learning bioinformatics and basic programming for data analysis. We anticipate deciding whether to have an in-person or virtual program by DATE.
- The duration of the internship is Monday, June 7 through Friday, August 6, 2021. It is a **full-time position. Please do not apply if you can only be here for part of the specified time, have another job or are attending classes during the day.** Final reports will be presented on Friday, August 6. Friends and family are encouraged to attend this event.
- You are expected to participate fully in the daily operation of the laboratory to which you are assigned, attend lab meetings and posted seminars, and conduct research as outlined by your mentor. Evenings and weekends may be required.
- Once you accept the internship, you will be obligated to work 40 hours per week for the full duration of the project, June 7 through August 6, 2021 and present your findings in an oral report and a poster on August 6.
- IMET will endeavor to provide summer housing for students from outside the Baltimore metropolitan area if the program is held in person. If you need housing, please state that at the bottom of page 1.
- You will need to demonstrate that you are eligible for employment.

I represent and warrant that I have read and fully understand the foregoing, and that I seek employment under these conditions and agree to the above conditions. I attest to the accuracy of the information provided.

Please print your name to indicate that you understand and agree. Date
