

GENEVIÈVE M. NESSLAGE

Chesapeake Biological Laboratory
University of Maryland Center for Environmental Science
P.O. Box 38, Solomons, MD 20688

Phone: 410-326-7223
Email: nesslage@umces.edu

EDUCATION

Ph.D. 2005 – Michigan State University

Dual degree: Fisheries & Wildlife; Ecology, Evolutionary Biology & Behavior

M.S. 2000 – State University of New York College of Environmental Science and Forestry, Syracuse

Degree: Wildlife Biology and Management

B.S. 1997 – Cornell University

Degree: Biology

Hughes Undergraduate Research Fellow

EXPERIENCE

2016 – Present: **Assistant Research Professor**, Chesapeake Biological Laboratory, University of Maryland Center for Environmental Science, Solomons, MD.

- Conduct research in fisheries stock assessment, fish and wildlife population dynamics and modeling, invasive species, and quantitative ecology. Current projects include development of ecosystem-based fisheries management tools for Atlantic menhaden, assessing golden tilefish dynamics and environmental drivers of recruitment, designing and evaluating survey and sampling programs for Atlantic menhaden, and modeling the spread of invasive aquatic plants.

2015 – 2016: **Visiting Research Assistant Professor**, Chesapeake Biological Laboratory, University of Maryland Center for Environmental Science, Solomons, MD.

- Conducted research on blue crab dynamics and invasive species population dynamics.

2007 – 2014: **Senior Stock Assessment Scientist**, Atlantic States Marine Fisheries Commission, Arlington, VA.

- Conducted and coordinated fisheries stock assessments for American lobster, Atlantic menhaden, American eel, and black sea bass. Served as lead assessment scientist for 2009 American lobster benchmark assessments for the Gulf of Maine and Southern New England stock units.
- Conducted and coordinated multispecies (menhaden, striped bass, bluefish, weakfish, and small coastal sharks) stock assessments to support ecosystem-based fisheries management.
- Taught stock assessment training short courses and coordinated professional development workshops on quantitative fisheries topics for state and federal biologists.
- Participated in and coordinated peer reviews of stock assessments, survey design and implementation, and collaborative research.

2005 – 2006: **Assistant Professor of Vertebrate Ecology**, Department of Biology, Clarion University, Clarion, PA.

- Developed and taught undergraduate and graduate courses in wildlife management and conservation, ecology, zoology, general biology, and biogeography.
- Curated the Clarion University Vertebrate Collections.

Summer 2006: **Instructor**, Michigan State University Study Abroad Program, East Lansing, MI.

- Co-instructed a study abroad undergraduate course on Tropical Ecology and Management in San Salvador, Bahamas.

Spring 2004 & Fall 2001: **Instructor**, Department of Fisheries and Wildlife, Michigan State University, East Lansing, MI.

- Developed and instructed the lab section of a graduate course in Applied Multivariate Statistical Methods.
- Instructed an undergraduate non-majors course on Natural History and Conservation in Michigan.

TEACHING

- Fisheries Science and Management, University of Maryland, MEES 682 – graduate course.
- Applied Multivariate Statistical Methods Lab, Michigan State University – graduate course.
- Seminar in Biogeography, Clarion University – graduate course.
- Wildlife Ecology & Management, Clarion University – senior undergrad and graduate course.
- General Zoology, Clarion University – upper level undergraduate course for Biology majors.
- Principles of Ecology, Clarion University – undergraduate course for Biology majors.
- Principles of Biology Lab, General Coordinator of 8 sections and Instructor, Clarion University – undergraduate course for Biology majors.
- Tropical Ecology and Management, Michigan State University – undergrad study abroad course.
- Natural History and Conservation in Michigan, Michigan State University – undergrad non-majors course.

Stock assessment workshops taught

- Co-instructed “Introduction to stock assessment for fisheries scientists”. 2012. ASMFC Stock Assessment Training Program taught as both an in-person and a distance-learning course produced using Camtasia and distributed on DVD.
- Co-instructed “Introduction to stock assessment for fisheries managers”. 2011. ASMFC Commissioner stock assessment training workshop.
- Instructed “Length-based stock assessment models”. 2009. ASMFC Commissioner stock assessment training workshop.
- Co-instructed “An introduction to stock assessment” for ASMFC and South Atlantic Fisheries Management Council staff. 2008.
- Instructed “An introduction to forward and backward projection stock assessment models”. 2007. ASMFC Commissioner stock assessment training workshop.

Guest lectures

- Chesapeake Bay Health (University of Maryland MEES 6981), 2016 and 2017
- Applications of GIS to Natural Resources Management, MSU, 2005
- Quantitative Methods in Ecology, MSU, 2004

- Ecology, MSU, 2004
- Biogeography, MSU, 2003
- Wildlife Habitats and Populations, SUNY-ESF, 1999

COURSE DEVELOPMENT AND MANAGEMENT SOFTWARE

- Moodle, Blackboard, and ANGEL Course Management Systems
- PBWorks Wiki Online Team Collaboration software
- Camtasia screen recording and editing software (for production of distance-learning courses)
- Audacity audio file recording and editing software
- Webinar-based instruction using GoToMeeting

PROFESSIONAL SERVICE

Federal

- Member of the South Atlantic Fisheries Management Council Scientific and Statistical Committee, 2016 – present
- Member of the NOAA Marine Mammal Atlantic Scientific Review Group, 2018 – present.

UMCES Chesapeake Biological Laboratory

- Graduate Education Committee, 2018
- Fall 2017 Distinguished Scholar Seminar Series Co-Coordinator

Clarion University of Pennsylvania

- Chair, Institutional Animal Care and Use Committee (College of Arts and Sciences)
- University representative to the Regional Science Consortium at the Tom Ridge Environmental Center, Presque Isle State Park
- New Science Center Fundraising Committee (College of Arts and Sciences)
- Graduate Committee (Department of Biology)
- Convocation Planning Committee

Michigan State University College of Agriculture & Natural Resources

- College Curriculum Committee

REVIEWER ACTIVITIES

Peer review workshop panelist

- Northwest Fisheries Science Center Stock Assessment Program Review, June, 2014.
- Stock Assessment for Gulf of Mexico Blue Crab. Gulf Data, Assessment, and Review (GDAR) 01. June 2013. Gulf States Marine Fisheries Commission Report #215.

Stock assessment reviews

- Stock assessment of southern flounder in the North Carolina waters. Peer review report to NCDEQ Division of Marine Fisheries. November, 2014.
- Stock assessment of Atlantic striped bass stocks in the Neuse and Tar/Pamlico Rivers of North Carolina. Peer review report to NCDEQ Division of Marine Fisheries. August, 2010.

Journals and book chapter reviews

Canadian Journal of Fisheries and Aquatic Sciences, North American Journal of Fisheries Management, Fisheries Research, Transactions of the American Fisheries Society, Ecology Letters, Ecological Applications, Evolutionary Ecology Research, Journal of Biogeography, Biological Invasions, British Ecological Society

Research proposal reviews

- Saltonstall-Kennedy Grant Program
- NOAA Fisheries And The Environment (FATE) Research Grant Program
- National Marine Fisheries Service Marine Fisheries Initiative (MARFIN)
- Maine Sea Grant Program

PROFESSIONAL SOCIETY MEMBERSHIPS

- American Fisheries Society
- The Wildlife Society

PROFESSIONAL DEVELOPMENT

- Recruiting Citizens to Conduct Science & Monitoring. 2016. North Carolina Coastal Training Program workshop.
- Maximum likelihood estimation for natural resources and ecology. 2007. Michigan State University Quantitative Fisheries Center online course.
- Integrating technology in the classroom. 2006. Learning and Technology Center, Clarion University.
- Energizing the large classroom. 2006. Partners in Teaching, Learning, and Assessment, Clarion University.
