Documents Attachment Page:

For S2S/Grants.gov submissions, the documents uploaded here ARE NOT submitted to the sponsor.

However, for all other, non-grants.Gov submissions, your full proposal must be uploaded here in PDF for routing and submission to the sponsor.

It is beneficial to also upload your source documents here so that anyone who needs to make corrections or changes on your behalf, has your final working document. This is especially helpful in the event the PI or CoPI is traveling or unavailable after the proposal begins the routing process.
